It does, gentlemen . . . with E.C.G.D. insurance that covers over £500 millions of exports a year

The Export Credits Guarantee Department provides manufacturers and merchants with the fullest security possible against the potential hazards of export trading. As its name implies, it *guarantees* that insured liabilities incurred by overseas buyers will be met . . . that 90 per cent. of export earnings will be paid, even when suddenly imposed currency restrictions block actual transfer of funds from the buyer's country. A risk not normally insurable through commercial channels, this is but one of the many dangers against which E.C.G.D. can safeguard you. E.C.G.D. can free you from anxiety in your foreign trading. You should learn more about it.

What E.C.G.D. is

E.C.G.D. stands for Export Credits Guarantee Department. It is a non-profit making Government office set up as far back as 1919 to insure U.K. exporters and merchants against the risks involved in overseas trading that are not normally insurable through commercial undertakings.

What E.C.G.D. does

E.C.G.D. provides cover against risks such as insolvency of buyer, protracted default, new exchange restrictions, war and civil disturbance abroad and "any other event outside the U.K. and beyond control of buyer or seller."

Where E.C.G.D. is

At the Head Office and in Branch Offices in key centres throughout Britain, officials of E.C.G.D. are at your service with expert advice and assistance in helping you to solve any problem of export credits. Ask for further information and/or a representative to call.
